[[LAtest Policy Upgrade 2026-2027]] Caribbean Pet Reservation Process 2026–2027: How to Add a Dog or Cat, Cabin Limits, Carrier Rules & Fee Structure

Complete Process,+1-866-877-0073 How to Add a Pet to Your Caribbean Airlines Flight – Call +1-866-877-0073

Adding a pet to your +1-866-877-0073 Caribbean Airlines flight is something that requires careful +1-866-877-0073 planning, advance preparation, and a thorough understanding +1-866-877-0073 of the airline's specific pet travel policies +1-866-877-0073. Whether you are traveling with a small dog +1-866-877-0073, a cat, or another accepted pet +1-866-877-0073, Caribbean Airlines does allow pets to travel +1-866-877-0073 in certain circumstances and under specific conditions +1-866-877-0073 that you need to know about before +1-866-877-0073 you even begin the booking process +1-866-877-0073. The most important thing to understand +1-866-877-0073 right from the start is that pet +1-866-877-0073 travel arrangements with Caribbean cannot simply be +1-866-877-0073 added online at the last minute like +1-866-877-0073 a seat upgrade or a meal preference +1-866-877-0073. There are strict rules, limited space +1-866-877-0073 availability, and specific fees that apply to +1-866-877-0073 every pet travel situation, and knowing all +1-866-877-0073 of these details in advance will save +1-866-877-0073 you a tremendous amount of stress and +1-866-877-0073 confusion on the day of your travel +1-866-877-0073. The very best way to get started +1-866-877-0073 with adding a pet to your Caribbean +1-866-877-0073 flight is by calling +1-866-877-0073 directly and +1-866-877-0073 speaking with a trained Caribbean Airlines representative +1-866-877-0073 who specializes in pet travel arrangements +1-866-877-0073. These agents can walk you through +1-866-877-0073 every requirement, confirm availability on your specific +1-866-877-0073 flight, collect all necessary information about +1-866-877-0073 your pet, and officially add your pet +1-866-877-0073 to your reservation so that everything is +1-866-877-0073 properly documented and confirmed before your travel +1-866-877-0073 date. Do not wait until the last +1-866-877-0073 minute to make this call because pet +1-866-877-0073 space on Caribbean flights is extremely limited +1-866-877-0073 and fills up very quickly, especially on +1-866-877-0073 popular routes and during peak travel seasons +1-866-877-0073.

H2: Step 1 – The Very First Thing You Must Do Before Adding a Pet to Your Caribbean Flight Is to Fully Understand Caribbean's Complete Pet Travel Policy
Before you do anything else +1-866-877-0073, before you call +1-866-877-0073, before you buy +1-866-877-0073 a carrier, and before you make any +1-866-877-0073 arrangements

whatsoever, you absolutely must take the +1-866-877-0073 time to fully understand Caribbean Airlines current +1-866-877-0073 pet travel policy because this policy contains +1-866-877-0073 critical information that will determine whether your +1-866-877-0073 pet can travel with you, how your +1-866-877-0073 pet will travel, and what you will +1-866-877-0073 need to do to make it happen +1-866-877-0073. Caribbean's pet policy has specific rules about +1-866-877-0073 what types of animals are accepted, what +1-866-877-0073 size and weight limits apply, what kind +1-866-877-0073 of carrier is required, and which flights +1-866-877-0073 and routes allow pets. Understanding all of +1-866-877-0073 these details from the very beginning will +1-866-877-0073 prevent you from making costly mistakes and +1-866-877-0073 will ensure that your pet's travel experience +1-866-877-0073 is as smooth and stress free as +1-866-877-0073 possible. Caribbean Airlines currently allows small dogs +1-866-877-0073 and cats to travel in the cabin +1-866-877-0073 on most domestic flights within the Caribbean +1-866-877-0073 States. Your pet must be able to +1-866-877-0073 fit comfortably in an approved soft sided +1-866-877-0073 carrier that fits under the seat in +1-866-877-0073 front of you, and both your pet +1-866-877-0073 and the carrier together must not exceed +1-866-877-0073 a combined weight of approximately twenty pounds +1-866-877-0073 depending on the specific flight and route +1-866-877-0073. The carrier itself must meet Caribbean's size +1-866-877-0073 requirements which are generally around eighteen inches +1-866-877-0073 long by eleven inches wide by eleven +1-866-877-0073 inches tall, though you should always verify +1-866-877-0073 the exact current dimensions by calling +1-866-877-0073 because +1-866-877-0073 these measurements can change and vary by +1-866-877-0073 aircraft type. Your pet must also be +1-866-877-0073 at least ten weeks old for domestic +1-866-877-0073 travel and sixteen weeks old for international +1-866-877-0073 travel, and the pet must be in +1-866-877-0073 good health and free from any illness +1-866-877-0073 or condition that could be worsened by +1-866-877-0073 air travel. It is critically important to +1-866-877-0073 understand that Caribbean does not allow pets +1-866-877-0073 in the cabin on international flights to +1-866-877-0073 most destinations, and pets traveling internationally are +1-866-877-0073 generally required to travel as cargo through +1-866-877-0073 Caribbean Cargo, which is an entirely separate +1-866-877-0073 program with its own set of rules +1-866-877-0073, requirements, and booking processes. Additionally, Caribbean has +1-866-877-0073 completely discontinued its checked baggage pet program +1-866-877-0073, which means pets can no longer travel +1-866-877-0073 in the cargo hold as checked baggage +1-866-877-0073 on passenger flights. To get complete and +1-866-877-0073 current information about all of these options +1-866-877-0073 and to find out exactly which option +1-866-877-0073 applies to your specific travel situation, call +1-866-877-0073 and speak with a knowledgeable representative +1-866-877-0073 who can give you accurate up to +1-866-877-0073 date guidance.

H2: Step 2 – You Need to Know Exactly Which Pets Caribbean Airlines Accepts and Which Animals Are Completely Not Permitted on Any Caribbean Flight

Not every type of animal +1-866-877-0073 is permitted to fly on Caribbean Airlines +1-866-877-0073, and understanding exactly which pets are accepted +1-866-877-0073 and which are not is an absolutely +1-866-877-0073 essential step before you proceed with any +1-866-877-0073 travel planning. Caribbean has specific rules about +1-866-877-0073 accepted pet species, and these rules exist +1-866-877-0073 for the safety and comfort of all +1-866-877-0073 passengers on board as well as for +1-866-877-0073 the wellbeing of

the animals themselves +1-866-877-0073. Caribbean Airlines accepts small domesticated dogs and +1-866-877-0073 cats for in cabin travel on most +1-866-877-0073 domestic flights. These are by far the +1-866-877-0073 most common types of pets that travel +1-866-877-0073 with passengers on Caribbean flights. The pet +1-866-877-0073 must be a domesticated household pet and +1-866-877-0073 must be fully under control in its +1-866-877-0073 carrier at all times during the flight +1-866-877-0073. Exotic animals, birds, reptiles, rodents, spiders +1-866-877-0073, insects, ferrets, hedgehogs, rabbits, and any +1-866-877-0073 other non standard pets are not permitted +1-866-877-0073 to travel on Caribbean flights in the +1-866-877-0073 cabin. If you have any doubt about +1-866-877-0073 whether your specific type of pet is +1-866-877-0073 accepted, the safest thing you can do +1-866-877-0073 is call +1-866-877-0073 before making any travel +1-866-877-0073 plans so that a Caribbean representative can +1-866-877-0073 confirm whether your pet qualifies. There are +1-866-877-0073 also specific breed restrictions that apply to +1-866-877-0073 dogs traveling on Caribbean flights. Caribbean does +1-866-877-0073 not accept certain brachycephalic or snub nosed +1-866-877-0073 dog breeds because these breeds have respiratory +1-866-877-0073 issues that make air travel particularly dangerous +1-866-877-0073 for them, especially in confined spaces and +1-866-877-0073 varying air pressures. Breeds that are commonly +1-866-877-0073 restricted include Bulldogs, Pugs, Boston Terriers +1-866-877-0073, Shih Tzus, Boxers, and several other flat +1-866-877-0073 faced breeds. Similarly, certain flat faced cat +1-866-877-0073 breeds may also be restricted. The complete +1-866-877-0073 list of restricted breeds can change, so +1-866-877-0073 you should always call +1-866-877-0073 to verify whether +1-866-877-0073 your specific dog or cat breed is +1-866-877-0073 currently accepted before making any bookings or +1-866-877-0073 travel plans. Making this call early in +1-866-877-0073 your planning process is the single most +1-866-877-0073 important step you can take to avoid +1-866-877-0073 arriving at the airport only to discover +1-866-877-0073 that your pet is not permitted to +1-866-877-0073 travel.

H2: Step 3 – Carefully Choose and Purchase the Correct Pet Carrier That Meets Every Single One of Caribbean's Specific Size and Safety Requirements

One of the most common +1-866-877-0073 mistakes that pet owners make when preparing +1-866-877-0073 to travel with their animals on Caribbean +1-866-877-0073 is purchasing or using a pet carrier +1-866-877-0073 that does not meet the airline's specific +1-866-877-0073 requirements. This can result in your pet +1-866-877-0073 being denied boarding at the airport, which +1-866-877-0073 is an incredibly stressful and disappointing situation +1-866-877-0073 that is completely avoidable if you do +1-866-877-0073 your research and choose the right carrier +1-866-877-0073 from the beginning. Caribbean Airlines has specific +1-866-877-0073 requirements for pet carriers that must be +1-866-877-0073 met in order for your pet to +1-866-877-0073 travel in the cabin, and these requirements +1-866-877-0073 cover the carrier's size, material, ventilation +1-866-877-0073, and how it fits under the aircraft +1-866-877-0073 seat. The carrier must be soft sided +1-866-877-0073 because soft sided carriers are flexible enough +1-866-877-0073 to fit under the seat in front +1-866-877-0073 of you even on aircraft with limited +1-866-877-0073 under seat space. Hard sided carriers are +1-866-877-0073 generally not accepted for in cabin travel +1-866-877-0073 because they cannot be compressed to fit +1-866-877-0073 under the seat. The carrier must have +1-866-877-0073 proper ventilation on at least two sides +1-866-877-0073 to ensure your pet has adequate airflow +1-866-877-0073 throughout the flight. The carrier must have +1-866-877-0073 a

secure locking mechanism to prevent your +1-866-877-0073 pet from accidentally escaping during the flight +1-866-877-0073. The carrier must be waterproof or have +1-866-877-0073 a waterproof bottom to contain any accidents +1-866-877-0073 your pet might have during travel, and +1-866-877-0073 it must be large enough for your +1-866-877-0073 pet to stand up, turn around, and +1-866-877-0073 lie down comfortably inside it. The specific +1-866-877-0073 dimensions that Caribbean accepts for soft sided +1-866-877-0073 carriers are approximately eighteen inches long by +1-866-877-0073 eleven inches wide by eleven inches tall +1-866-877-0073, but these measurements can vary depending on +1-866-877-0073 the aircraft type and the specific seat +1-866-877-0073 configuration on your flight. To get the +1-866-877-0073 exact current dimensions that apply to your +1-866-877-0073 specific flight, call +1-866-877-0073 and provide your +1-866-877-0073 flight number and route information. The agent +1-866-877-0073 will be able to tell you exactly +1-866-877-0073 what size carrier you need for your +1-866-877-0073 specific aircraft. Once you know the exact +1-866-877-0073 dimensions, purchase a high quality soft sided +1-866-877-0073 pet carrier that meets all of these +1-866-877-0073 requirements and test it with your pet +1-866-877-0073 before your travel date to make sure +1-866-877-0073 your pet is comfortable and fits properly +1-866-877-0073 inside it.

H2: Step 4 – Check the Availability of Pet Space on Your Specific Caribbean Flight as Early as Possible Because Spots Fill Up Extremely Fast

One of the most important +1-866-877-0073 things to understand about adding a pet +1-866-877-0073 to a Caribbean flight is that the +1-866-877-0073 number of pets allowed in the cabin +1-866-877-0073 on any given flight is strictly limited +1-866-877-0073. Caribbean typically allows only a small number +1-866-877-0073 of pets in the cabin per flight +1-866-877-0073, and these spots can fill up very +1-866-877-0073 quickly especially on busy routes and during +1-866-877-0073 popular travel times such as holidays, summer +1-866-877-0073 vacation season, and spring break. This is +1-866-877-0073 why it is absolutely essential to check +1-866-877-0073 pet space availability and make your pet +1-866-877-0073 reservation as early as possible, ideally at +1-866-877-0073 the same time you book your own +1-866-877-0073 ticket or even before. To check whether +1-866-877-0073 pet space is available on your specific +1-866-877-0073 flight, you need to call +1-866-877-0073 directly +1-866-877-0073 because pet space availability is not shown +1-866-877-0073 on the Caribbean website or mobile app +1-866-877-0073 when you search for flights. The Caribbean +1-866-877-0073 representative will be able to look up +1-866-877-0073 your specific flight, check how many pet +1-866-877-0073 spots are available, and reserve one for +1-866-877-0073 your pet at the time of your +1-866-877-0073 call. If you wait too long and +1-866-877-0073 the pet spots on your preferred flight +1-866-877-0073 are all taken, you will either need +1-866-877-0073 to travel on a different flight or +1-866-877-0073 make alternative arrangements for your pet +1-866-877-0073, both of which are situations that cause +1-866-877-0073 significant stress and disruption to your travel +1-866-877-0073 plans. When you call +1-866-877-0073 to check +1-866-877-0073 availability, have your flight details ready including +1-866-877-0073 your flight number, departure date, departure city +1-866-877-0073, and destination city. Also have your existing +1-866-877-0073 booking confirmation number ready if you have +1-866-877-0073 already purchased your own ticket so that +1-866-877-0073 the agent can access your reservation and +1-866-877-0073 add the pet space to the same +1-866-877-0073 booking. The agent will confirm whether space +1-866-877-0073 is

available, explain the pet fee that +1-866-877-0073 applies, and process the reservation for your +1-866-877-0073 pet on the spot.

H2: Step 5 – Gather All of Your Pet's Important Information and Required Documentation Before You Call Caribbean to Add the Pet

Before you call +1-866-877-0073 to +1-866-877-0073 officially add your pet to your Caribbean +1-866-877-0073 flight reservation, it is very important that +1-866-877-0073 you have all of the necessary information +1-866-877-0073 and documentation about your pet ready and +1-866-877-0073 accessible. Having this information prepared in advance +1-866-877-0073 will make the phone call much faster +1-866-877-0073 and more efficient, and it will ensure +1-866-877-0073 that all of the correct details are +1-866-877-0073 entered into Caribbean's system accurately and completely +1-866-877-0073. The information you will need to have +1-866-877-0073 ready includes your pet's full species, breed +1-866-877-0073, age, weight, and color. You will also +1-866-877-0073 need to know the exact weight of +1-866-877-0073 your pet plus the carrier together because +1-866-877-0073 this combined weight must not exceed the +1-866-877-0073 limit that Caribbean has set for in +1-866-877-0073 cabin pet travel. Weigh your pet in +1-866-877-0073 the carrier before you call so you +1-866-877-0073 can provide an accurate combined weight to +1-866-877-0073 the agent. You should also have the +1-866-877-0073 dimensions of your pet's carrier ready including +1-866-877-0073 the length, width, and height measurements so +1-866-877-0073 the agent can verify that it meets +1-866-877-0073 Caribbean's requirements for your specific flight and +1-866-877-0073 aircraft. You may also be asked about +1-866-877-0073 your pet's health status and whether your +1-866-877-0073 pet has any medical conditions or special +1-866-877-0073 needs that Caribbean should be aware of +1-866-877-0073. While Caribbean does not currently require a +1-866-877-0073 health certificate from a veterinarian for domestic +1-866-877-0073 pet travel, some routes and some circumstances +1-866-877-0073 may require documentation, and it is always +1-866-877-0073 a good idea to have a recent +1-866-877-0073 health certificate from your vet available just +1-866-877-0073 in case. For international travel or travel +1-866-877-0073 under special circumstances, health certificates and other +1-866-877-0073 veterinary documentation may be mandatory, so you +1-866-877-0073 should ask the agent at +1-866-877-0073 specifically what +1-866-877-0073 documentation is required for your particular route +1-866-877-0073 and travel situation. Having everything ready before +1-866-877-0073 you call ensures that the pet reservation +1-866-877-0073 process goes smoothly and that no important +1-866-877-0073 details are missed.

H2: Step 6 – Call Caribbean Airlines at +1-866-877-0073 to Officially Add Your Pet to Your Flight Reservation and Complete the Full Booking Process

Once you have gathered all +1-866-877-0073 of your pet's information, confirmed that your +1-866-877-0073 carrier meets Caribbean's requirements, and checked that +1-866-877-0073 your preferred flight can accommodate a pet +1-866-877-0073, the next step is to make the +1-866-877-0073 official call to +1-866-877-0073 to add your +1-866-877-0073 pet to your reservation. This phone call +1-866-877-0073 is the most important step in the +1-866-877-0073 entire process because it is the only +1-866-877-0073 way to officially and legally reserve a +1-866-877-0073 pet space on your Caribbean flight. You +1-866-877-0073 cannot add a pet to a Caribbean +1-866-877-0073 reservation through the website or the mobile +1-866-877-0073 app, so calling

+1-866-877-0073 is absolutely essential +1-866-877-0073 and cannot be skipped or substituted with +1-866-877-0073 any online process. When you call +1-866-877-0073 +1-866-877-0073, the representative will ask you for your +1-866-877-0073 booking confirmation number so they can access +1-866-877-0073 your existing reservation. They will then ask +1-866-877-0073 you for all of the details about +1-866-877-0073 your pet that you gathered in the +1-866-877-0073 previous step, including the species, breed, age +1-866-877-0073, weight of the pet alone, combined weight +1-866-877-0073 of the pet and carrier, and the +1-866-877-0073 dimensions of your carrier. The agent will +1-866-877-0073 verify that all of this information meets +1-866-877-0073 Caribbean's requirements for your specific flight and +1-866-877-0073 will confirm that a pet space is +1-866-877-0073 available. They will also inform you of +1-866-877-0073 the pet fee that applies to your +1-866-877-0073 flight and ask for payment information to +1-866-877-0073 process the fee at the time of +1-866-877-0073 the call. After the payment is processed +1-866-877-0073 and the pet reservation is confirmed, the +1-866-877-0073 agent will add an official notation to +1-866-877-0073 your booking record indicating that you are +1-866-877-0073 traveling with a pet in cabin. You +1-866-877-0073 will receive a confirmation email that includes +1-866-877-0073 this notation, and you should keep this +1-866-877-0073 confirmation handy and bring it with you +1-866-877-0073 to the airport on your travel day +1-866-877-0073. Make sure to review the confirmation carefully +1-866-877-0073 and verify that all of the pet +1-866-877-0073 information is correct. If you notice any +1-866-877-0073 errors or discrepancies, call +1-866-877-0073 right away +1-866-877-0073 to have them corrected before your travel +1-866-877-0073 date.

H2: Step 7 – Understand the Complete and Current Fee Structure for Traveling with a Pet on Caribbean Airlines So You Are Not Surprised at the Airport

One of the things that +1-866-877-0073 surprises many pet owners when they first +1-866-877-0073 explore traveling with their animals on Caribbean +1-866-877-0073 Airlines is the cost involved. There are +1-866-877-0073 specific fees associated with pet travel on +1-866-877-0073 Caribbean, and these fees are separate from +1-866-877-0073 your own ticket price and must be +1-866-877-0073 paid in addition to any other charges +1-866-877-0073 associated with your reservation. Understanding the complete +1-866-877-0073 fee structure before you make your reservation +1-866-877-0073 will help you budget properly and avoid +1-866-877-0073 any unexpected financial surprises on the day +1-866-877-0073 of your travel. Caribbean Airlines charges a +1-866-877-0073 pet fee each way for pets traveling +1-866-877-0073 in the cabin. This means you pay +1-866-877-0073 the fee for the outbound journey and +1-866-877-0073 separately for the return journey if you +1-866-877-0073 are traveling round trip. The fee can +1-866-877-0073 vary depending on the route, the destination +1-866-877-0073, and any current Caribbean pricing policies, so +1-866-877-0073 you should always call +1-866-877-0073 to get the +1-866-877-0073 exact and most current fee that applies +1-866-877-0073 to your specific flights. As a general +1-866-877-0073 reference point, the in cabin pet fee +1-866-877-0073 for domestic travel on Caribbean has historically +1-866-877-0073 been in the range of ninety five +1-866-877-0073 to two hundred dollars per direction, but +1-866-877-0073 this can change and the agent will +1-866-877-0073 confirm the exact amount during your call +1-866-877-0073. It is important to note that the +1-866-877-0073 pet fee is non refundable in most +1-866-877-0073 cases, which means if you need to +1-866-877-0073 cancel your trip or change your plans +1-866-877-0073, you may not be able to recover +1-866-877-0073 the pet fee you paid. This is +1-866-877-0073 another reason why it is so

important +1-866-877-0073 to confirm all of the details of +1-866-877-0073 your trip before adding the pet and +1-866-877-0073 paying the fee. You should also be +1-866-877-0073 aware that the pet fee counts as +1-866-877-0073 an additional carry on item, meaning that +1-866-877-0073 if you are already bringing a full +1-866-877-0073 sized carry on bag and a personal +1-866-877-0073 item, adding a pet in a carrier +1-866-877-0073 may affect how many additional bags you +1-866-877-0073 can bring into the cabin. Ask the +1-866-877-0073 agent at +1-866-877-0073 to explain exactly how +1-866-877-0073 the pet carrier counts against your carry +1-866-877-0073 on allowance for your specific fare class +1-866-877-0073 and ticket type so you can plan +1-866-877-0073 your packing accordingly.

H2: Step 8 – Schedule a Complete Veterinary Visit Well Before Your Travel Date to Ensure Your Pet Is Healthy Enough and Fit to Fly Safely

Traveling by air is a +1-866-877-0073 stressful experience for animals, and it is +1-866-877-0073 absolutely essential that you visit your veterinarian +1-866-877-0073 well in advance of your travel date +1-866-877-0073 to ensure that your pet is healthy +1-866-877-0073 enough to make the journey. A thorough +1-866-877-0073 veterinary checkup before air travel is not +1-866-877-0073 just a good idea but is a +1-866-877-0073 responsible and caring step that every pet +1-866-877-0073 owner should take to protect their animal's +1-866-877-0073 health and wellbeing during what can be +1-866-877-0073 a physically and emotionally demanding experience +1-866-877-0073. When you visit your veterinarian, ask them +1-866-877-0073 to perform a complete physical examination of +1-866-877-0073 your pet and specifically mention that your +1-866-877-0073 pet will be traveling by airplane. Your +1-866-877-0073 vet can assess whether your pet is +1-866-877-0073 in good enough health to handle the +1-866-877-0073 stress of air travel, and they can +1-866-877-0073 also advise you on any specific precautions +1-866-877-0073 you should take based on your pet's +1-866-877-0073 age, weight, breed, and medical history +1-866-877-0073. If your pet has any underlying health +1-866-877-0073 conditions such as heart disease, respiratory issues +1-866-877-0073, or anxiety disorders, your vet can advise +1-866-877-0073 you on whether air travel is appropriate +1-866-877-0073 and what steps you can take to +1-866-877-0073 minimize the risk to your pet's health +1-866-877-0073 during the flight. Ask your vet about +1-866-877-0073 whether any medications are appropriate for your +1-866-877-0073 pet to help manage travel anxiety or +1-866-877-0073 motion sickness. It is important to note +1-866-877-0073 that Caribbean Airlines and most veterinary organizations +1-866-877-0073 actually advise against sedating pets for air +1-866-877-0073 travel because sedation can actually increase the +1-866-877-0073 risk of respiratory and cardiovascular problems at +1-866-877-0073 altitude. If your vet does recommend any +1-866-877-0073 form of medication or supplement to help +1-866-877-0073 calm your pet, make sure it has +1-866-877-0073 been tested on your pet in advance +1-866-877-0073 so you know how your animal reacts +1-866-877-0073 to it before the travel day. Also +1-866-877-0073 ask your vet to provide you with +1-866-877-0073 a signed health certificate dated within ten +1-866-877-0073 days of your travel date because some +1-866-877-0073 routes and destinations require this documentation +1-866-877-0073. Call +1-866-877-0073 to ask whether a health +1-866-877-0073 certificate is required for your specific route +1-866-877-0073 and destination.

H2: Step 9 – Prepare Your Pet Emotionally and Physically for the Air Travel Experience Well in Advance of Your Actual Departure Date

Just as important as the +1-866-877-0073 logistical preparations for pet travel is the +1-866-877-0073 emotional and physical preparation of your pet +1-866-877-0073 for the experience of flying. Many animals +1-866-877-0073 find air travel stressful and disorienting, and +1-866-877-0073 taking the time to properly prepare your +1-866-877-0073 pet in the weeks and days leading +1-866-877-0073 up to your flight can make a +1-866-877-0073 significant difference in how comfortably and calmly +1-866-877-0073 your pet handles the experience. Start by +1-866-877-0073 introducing your pet to the travel carrier +1-866-877-0073 as early as possible, ideally several weeks +1-866-877-0073 before your travel date. Leave the carrier +1-866-877-0073 open in your home with comfortable bedding +1-866-877-0073 inside it and allow your pet to +1-866-877-0073 explore it freely and at their own +1-866-877-0073 pace. Place some of your pet's favorite +1-866-877-0073 toys or treats inside the carrier to +1-866-877-0073 create positive associations with it. Over time +1-866-877-0073, encourage your pet to spend increasing amounts +1-866-877-0073 of time inside the carrier with the +1-866-877-0073 door closed so they become comfortable with +1-866-877-0073 the enclosed space. The goal is for +1-866-877-0073 your pet to view the carrier as +1-866-877-0073 a safe and familiar space rather than +1-866-877-0073 a frightening or unfamiliar one. Practice short +1-866-877-0073 car rides with your pet in the +1-866-877-0073 carrier to help them get used to +1-866-877-0073 the sensation of movement and the sounds +1-866-877-0073 and vibrations that come with transportation +1-866-877-0073. Gradually extend the duration of these practice +1-866-877-0073 sessions so your pet becomes accustomed to +1-866-877-0073 spending longer periods of time confined in +1-866-877-0073 the carrier during movement. In the days +1-866-877-0073 before your flight, maintain your pet's regular +1-866-877-0073 feeding and exercise schedule as much as +1-866-877-0073 possible to minimize disruption to their routine +1-866-877-0073, which can contribute to stress. On the +1-866-877-0073 day of the flight, feed your pet +1-866-877-0073 a light meal a few hours before +1-866-877-0073 departure rather than right before the flight +1-866-877-0073 to reduce the risk of motion sickness +1-866-877-0073 or gastrointestinal discomfort during travel. For specific +1-866-877-0073 advice tailored to your pet's breed, age +1-866-877-0073, and personality, consult with your veterinarian and +1-866-877-0073 call +1-866-877-0073 to ask whether Caribbean has +1-866-877-0073 any specific recommendations for preparing your type +1-866-877-0073 of pet for air travel.

H2: Step 10 – Pack a Complete and Thorough Pet Travel Kit With Everything Your Pet Will Need for a Comfortable and Safe Journey

Properly packing everything your pet +1-866-877-0073 will need for the journey is a +1-866-877-0073 critical step that many first time pet +1-866-877-0073 travelers overlook until the last minute +1-866-877-0073. Having a well prepared pet travel kit +1-866-877-0073 ready before your departure day ensures that +1-866-877-0073 you are equipped to handle any situation +1-866-877-0073 that arises during your journey and that +1-866-877-0073 your pet has everything they need to +1-866-877-0073 stay comfortable, calm, and safe from the +1-866-877-0073 moment you leave home until you arrive +1-866-877-0073 at your final destination. Your pet travel +1-866-877-0073 kit should start with all of the +1-866-877-0073 essential documents your pet will need +1-866-877-0073. This includes the confirmation of your pet +1-866-877-0073 reservation from Caribbean which you received when +1-866-877-0073 you called +1-866-877-0073 to add your pet

+1-866-877-0073 to the flight, your pet's health certificate +1-866-877-0073 if required for your route, proof of +1-866-877-0073 vaccinations particularly rabies vaccination, and any other +1-866-877-0073 veterinary documentation that may be needed at +1-866-877-0073 check in or at your destination. Keep +1-866-877-0073 all of these documents together in a +1-866-877-0073 waterproof folder or envelope that is easily +1-866-877-0073 accessible in your personal bag so you +1-866-877-0073 can present them quickly when needed. Your +1-866-877-0073 kit should also include an adequate supply +1-866-877-0073 of your pet's regular food and water +1-866-877-0073 for the duration of the journey plus +1-866-877-0073 extra in case of unexpected delays. Bring +1-866-877-0073 a collapsible water bowl so you can +1-866-877-0073 offer your pet water during layovers or +1-866-877-0073 in the terminal before and after the +1-866-877-0073 flight. Pack a small supply of your +1-866-877-0073 pet's favorite treats both to reward calm +1-866-877-0073 behavior and to help your pet associate +1-866-877-0073 the travel experience with positive things. Bring +1-866-877-0073 pet safe cleaning supplies including paper towels +1-866-877-0073, pet safe disinfectant wipes, and small waste +1-866-877-0073 bags in case of accidents during the +1-866-877-0073 journey. Include a favorite toy or a +1-866-877-0073 piece of your clothing inside the carrier +1-866-877-0073 to provide comfort through familiar scents and +1-866-877-0073 textures. Also bring any medications your veterinarian +1-866-877-0073 has prescribed along with clear written instructions +1-866-877-0073 for dosing. If you have any questions +1-866-877-0073 about what specific items to bring for +1-866-877-0073 your pet, call +1-866-877-0073 and ask the +1-866-877-0073 Caribbean representative if there are any specific +1-866-877-0073 items that are recommended or required for +1-866-877-0073 pets traveling on your route.

H2: Step 11 – On the Day of Your Caribbean Flight You Must Arrive at the Airport Much Earlier Than Normal to Allow Plenty of Extra Time

Traveling with a pet adds +1-866-877-0073 a significant amount of time to the +1-866-877-0073 airport check in process, and it is +1-866-877-0073 absolutely essential that you arrive at the +1-866-877-0073 airport much earlier than you normally would +1-866-877-0073 for a flight without a pet. Airlines +1-866-877-0073 have specific procedures for processing pet travelers +1-866-877-0073 that take additional time beyond the standard +1-866-877-0073 check in process, and arriving late to +1-866-877-0073 the airport with a pet can create +1-866-877-0073 enormous stress, could result in you missing +1-866-877-0073 your flight, and could create problems for +1-866-877-0073 your pet's official documentation and boarding +1-866-877-0073. As a general rule, you should plan +1-866-877-0073 to arrive at the airport at least +1-866-877-0073 three hours before your domestic departure time +1-866-877-0073 when traveling with a pet, and even +1-866-877-0073 earlier for international travel. When you arrive +1-866-877-0073 at the airport, go directly to the +1-866-877-0073 Caribbean check in counter rather than using +1-866-877-0073 any self service kiosks or automated check +1-866-877-0073 in systems. You must check in with +1-866-877-0073 a human agent when traveling with a +1-866-877-0073 pet because the agent needs to physically +1-866-877-0073 verify your pet, your carrier, and your +1-866-877-0073 documentation before your boarding pass can be +1-866-877-0073 issued. Have all of your documents ready +1-866-877-0073 when you approach the counter including your +1-866-877-0073 own ID or passport, your booking confirmation +1-866-877-0073, your pet reservation confirmation, your pet's +1-866-877-0073 health certificate if required, and proof of +1-866-877-0073 vaccinations. The agent will ask you to +1-866-877-0073 place the carrier on the counter or

+1-866-877-0073 the scale so they can verify that +1-866-877-0073 the carrier dimensions and the combined weight +1-866-877-0073 of the pet and carrier meet Caribbean's +1-866-877-0073 requirements. The agent will also visually inspect +1-866-877-0073 your pet to confirm that the animal +1-866-877-0073 appears to be in good health and +1-866-877-0073 is a species and breed that is +1-866-877-0073 accepted for travel on your specific flight +1-866-877-0073. Having called +1-866-877-0073 in advance and having +1-866-877-0073 everything properly prepared will minimize the risk +1-866-877-0073 of any problems at check in.

H2: Step 12 – Navigate the Airport Security Screening Process With Your Pet Correctly and Calmly to Avoid Any Delays or Potential Complications

Going through airport security with +1-866-877-0073 a pet requires some specific steps that +1-866-877-0073 differ from the standard security screening process +1-866-877-0073, and knowing exactly what to expect and +1-866-877-0073 what to do before you reach the +1-866-877-0073 security checkpoint will help you move through +1-866-877-0073 this process as smoothly and efficiently as +1-866-877-0073 possible. The Transportation Security Administration has specific +1-866-877-0073 procedures for screening passengers traveling with pets +1-866-877-0073, and being prepared for these procedures in +1-866-877-0073 advance will reduce stress for both you +1-866-877-0073 and your animal. When you arrive at +1-866-877-0073 the security checkpoint, you will need to +1-866-877-0073 remove your pet from the carrier before +1-866-877-0073 placing the carrier on the X-ray belt +1-866-877-0073. Your pet cannot go through the X-ray +1-866-877-0073 machine, and neither can a pet inside +1-866-877-0073 a carrier. You must hold your pet +1-866-877-0073 securely in your arms while the empty +1-866-877-0073 carrier passes through the X-ray scanner +1-866-877-0073. This means your pet will be in +1-866-877-0073 direct contact with the airport environment during +1-866-877-0073 this brief moment, so it is very +1-866-877-0073 important that your pet is secured with +1-866-877-0073 a collar and leash before you remove +1-866-877-0073 them from the carrier. Never remove your +1-866-877-0073 pet from the carrier without having a +1-866-877-0073 secure leash or harness on them because +1-866-877-0073 the airport environment with its loud noises +1-866-877-0073, crowds, and unfamiliar smells can cause +1-866-877-0073 even normally calm pets to become startled +1-866-877-0073 and attempt to flee. After the carrier +1-866-877-0073 has gone through the X-ray scanner, you +1-866-877-0073 will walk through the standard metal detector +1-866-877-0073 or body scanner while holding your pet +1-866-877-0073. Once you and your carrier have both +1-866-877-0073 cleared security, place your pet back inside +1-866-877-0073 the carrier and secure all of the +1-866-877-0073 closures before proceeding further into the terminal +1-866-877-0073. If you have any specific concerns about +1-866-877-0073 the security process, call +1-866-877-0073 in advance +1-866-877-0073 to ask Caribbean for any guidance they +1-866-877-0073 can offer regarding the security process for +1-866-877-0073 pet travelers.

H2: Step 13 – Know Exactly How to Handle Your Pet at the Boarding Gate and During the Entire Boarding Process for Your Caribbean Flight

After clearing security, you will +1-866-877-0073 make your way to your departure gate +1-866-877-0073 where you will wait for your flight +1-866-877-0073 to begin boarding. This waiting period at +1-866-877-0073 the gate is an important time to +1-866-877-0073 ensure your pet remains as calm and +1-866-877-0073 comfortable as possible before the flight,

and +1-866-877-0073 there are several things you can do +1-866-877-0073 during this time to help your pet +1-866-877-0073 settle in and prepare for the journey +1-866-877-0073 ahead. Find a quiet spot in the +1-866-877-0073 gate area away from heavy foot traffic +1-866-877-0073 and loud noise where you and your +1-866-877-0073 pet can wait comfortably. If your pet +1-866-877-0073 needs water, offer some from your collapsible +1-866-877-0073 travel bowl before boarding. If your pet +1-866-877-0073 needs a bathroom break, many airports have +1-866-877-0073 designated pet relief areas that you can +1-866-877-0073 visit before going through security or during +1-866-877-0073 your connection between flights. Check with airport +1-866-877-0073 staff at the gate or call +1-866-877-0073 to +1-866-877-0073 ask if Caribbean can advise you on +1-866-877-0073 pet relief facilities at your specific departure +1-866-877-0073 airport. When boarding begins, listen carefully for +1-866-877-0073 the boarding announcements. Caribbean typically boards passengers +1-866-877-0073 who need extra time and passengers with +1-866-877-0073 special needs before general boarding begins +1-866-877-0073. Traveling with a pet may qualify you +1-866-877-0073 for pre boarding in some circumstances, so +1-866-877-0073 approach the gate agent when you arrive +1-866-877-0073 and ask whether you are eligible for +1-866-877-0073 early boarding. Getting on the plane early +1-866-877-0073 is advantageous when traveling with a pet +1-866-877-0073 because it gives you extra time to +1-866-877-0073 get settled in your seat and properly +1-866-877-0073 stow your pet's carrier under the seat +1-866-877-0073 in front of you before the cabin +1-866-877-0073 becomes crowded with other passengers. Once you +1-866-877-0073 are on board, place the carrier under +1-866-877-0073 the seat in front of you and +1-866-877-0073 make sure it is fully secured and +1-866-877-0073 not blocking the aisle. Your pet must +1-866-877-0073 remain inside the closed carrier for the +1-866-877-0073 entire duration of the flight including during +1-866-877-0073 takeoff, landing, and any turbulence. If you +1-866-877-0073 have any questions about the boarding process +1-866-877-0073 or need assistance, call +1-866-877-0073 in advance +1-866-877-0073 to get specific guidance for your flight +1-866-877-0073.

H2: Step 14 – Take Proper Care of Your Pet During the Actual Flight to Ensure Your Animal Stays Safe, Calm, and Comfortable the Entire Time

Once you are settled in +1-866-877-0073 your seat on the Caribbean flight with +1-866-877-0073 your pet's carrier properly stowed under the +1-866-877-0073 seat in front of you, your focus +1-866-877-0073 shifts to keeping your pet as calm +1-866-877-0073 and comfortable as possible for the duration +1-866-877-0073 of the flight. Your pet must remain +1-866-877-0073 inside the carrier at all times during +1-866-877-0073 the flight. This is not just a +1-866-877-0073 Caribbean rule but is also a safety +1-866-877-0073 requirement, and violating this rule could result +1-866-877-0073 in serious consequences including being asked to +1-866-877-0073 deplane or being reported by crew members +1-866-877-0073. Even if your pet seems uncomfortable or +1-866-877-0073 is crying or whimpering inside the carrier +1-866-877-0073, you should not open the carrier to +1-866-877-0073 take your pet out. Instead, you can +1-866-877-0073 gently talk to your pet through the +1-866-877-0073 carrier mesh in a calm and soothing +1-866-877-0073 voice, place your hand near the carrier +1-866-877-0073 mesh so your pet can smell your +1-866-877-0073 scent, or offer a small treat through +1-866-877-0073 the mesh if your pet is willing +1-866-877-0073 to eat. These techniques can help reassure +1-866-877-0073 your pet without requiring you to open +1-866-877-0073 the carrier. The cabin environment on a +1-866-877-0073 commercial aircraft can be stressful for animals +1-866-877-0073 because of the noise of

the engines +1-866-877-0073, the changes in air pressure during ascent +1-866-877-0073 and descent, the recycled air, and the +1-866-877-0073 presence of many unfamiliar people and smells +1-866-877-0073. Be prepared for your pet to vocalize +1-866-877-0073 during the flight, particularly during takeoff and +1-866-877-0073 landing when the noise and pressure changes +1-866-877-0073 are most significant. Try to remain calm +1-866-877-0073 yourself because pets are very sensitive to +1-866-877-0073 their owner's emotional state and a calm +1-866-877-0073 owner is one of the most effective +1-866-877-0073 things for helping a nervous pet settle +1-866-877-0073 down. If your pet seems extremely distressed +1-866-877-0073 at any point during the flight, you +1-866-877-0073 can quietly alert a flight attendant and +1-866-877-0073 ask for assistance. You can also call +1-866-877-0073 +1-866-877-0073 after your flight to provide feedback about +1-866-877-0073 your pet's travel experience.

H2: Step 15 – Handle Your Arrival at the Destination Airport Properly and Take Care of Your Pet's Immediate Needs Right After Landing
When your Caribbean flight lands +1-866-877-0073 at your destination airport, there are several +1-866-877-0073 important steps you need to take to +1-866-877-0073 ensure your pet's wellbeing and to transition +1-866-877-0073 smoothly from the aircraft to your final +1-866-877-0073 destination. As soon as the aircraft has +1-866-877-0073 come to a complete stop and the +1-866-877-0073 seatbelt sign has been turned off, check +1-866-877-0073 on your pet in the carrier to +1-866-877-0073 make sure they are okay. Talk to +1-866-877-0073 your pet calmly and reassuringly as you +1-866-877-0073 prepare to deplane. When exiting the aircraft +1-866-877-0073, carry your pet's carrier securely and proceed +1-866-877-0073 to the airport terminal. Once you are +1-866-877-0073 inside the terminal, find the nearest pet +1-866-877-0073 relief area as quickly as possible so +1-866-877-0073 your pet can use the bathroom, stretch +1-866-877-0073 their legs, and get some water after +1-866-877-0073 the flight. Most major airports have designated +1-866-877-0073 pet relief areas both before and after +1-866-877-0073 security, and airport staff or signage can +1-866-877-0073 direct you to the nearest one. After +1-866-877-0073 your pet has had a chance to +1-866-877-0073 relieve themselves and settle down, assess their +1-866-877-0073 overall condition and make sure they appear +1-866-877-0073 healthy, calm, and comfortable. If your pet +1-866-877-0073 appears to be in distress, disoriented +1-866-877-0073, or shows any signs of illness after +1-866-877-0073 the flight, contact a local veterinarian as +1-866-877-0073 soon as possible. If you had any +1-866-877-0073 issues or concerns during the flight related +1-866-877-0073 to Caribbean's pet travel service, you can +1-866-877-0073 report them by calling +1-866-877-0073 and providing +1-866-877-0073 feedback so that Caribbean can address any +1-866-877-0073 problems and improve the experience for future +1-866-877-0073 pet travelers.

H2: Step 16 – Understand All the Special Rules and Important Restrictions That Apply Specifically to Traveling With a Pet on International Caribbean Flights
If your travel plans involve +1-866-877-0073 flying internationally with Caribbean Airlines, you need +1-866-877-0073 to be aware that the rules for +1-866-877-0073 pet travel on international routes are significantly +1-866-877-0073 more complex and restrictive than for domestic +1-866-877-0073 travel. International pet travel involves not just +1-866-877-0073 Caribbean's own policies but also the import +1-866-877-0073 and export regulations of the countries you +1-866-877-0073 are traveling to and from, which can +1-866-877-0073 vary

enormously from one country to another +1-866-877-0073 and can involve extensive documentation requirements, quarantine +1-866-877-0073 periods, and specific health testing that must +1-866-877-0073 be completed well in advance of your +1-866-877-0073 travel date. As mentioned earlier, Caribbean does +1-866-877-0073 not currently allow pets to travel in +1-866-877-0073 the cabin on most international routes. Pets +1-866-877-0073 traveling internationally with Caribbean generally need to +1-866-877-0073 use the Caribbean Cargo service, which is +1-866-877-0073 a completely separate booking and operational system +1-866-877-0073 from the passenger airline service. If you +1-866-877-0073 need to transport a pet internationally and +1-866-877-0073 in cabin travel is not available for +1-866-877-0073 your route, call +1-866-877-0073 first and the +1-866-877-0073 agent can direct you to the appropriate +1-866-877-0073 Caribbean Cargo contact and resources to get +1-866-877-0073 started with that process. Each country has +1-866-877-0073 its own set of import requirements for +1-866-877-0073 animals entering from abroad, and these requirements +1-866-877-0073 can include health certificates from accredited veterinarians +1-866-877-0073, proof of current vaccinations especially rabies +1-866-877-0073, microchipping requirements, blood titer tests to +1-866-877-0073 prove rabies immunity, treatment records for parasites +1-866-877-0073 such as tapeworms and heartworms, and in +1-866-877-0073 some cases mandatory quarantine periods that can +1-866-877-0073 last from a few days to several +1-866-877-0073 months depending on the destination country. Countries +1-866-877-0073 like Hawaii, Australia, New Zealand, Caribbean +1-866-877-0073, and the Caribbean Kingdom have some of +1-866-877-0073 the strictest pet import requirements in the +1-866-877-0073 world. Contact the embassy or consulate of +1-866-877-0073 your destination country and consult with your +1-866-877-0073 veterinarian well in advance, and call +1-866-877-0073 +1-866-877-0073 to find out exactly what Caribbean requires +1-866-877-0073 for international pet travel to your specific +1-866-877-0073 destination.

H2: Step 17 – Learn About How Caribbean Airlines Handles Service Animals Versus Regular Pets and What the Current Policies Are for Each Category
It is important to understand +1-866-877-0073 the distinction between a regular pet traveling +1-866-877-0073 in cabin, a trained service animal, and +1-866-877-0073 an emotional support animal because Caribbean's policies +1-866-877-0073 for these three categories of animals are +1-866-877-0073 very different from one another and the +1-866-877-0073 rules that apply to each category have +1-866-877-0073 changed significantly in recent years. A trained +1-866-877-0073 service animal is a dog that has +1-866-877-0073 been individually trained to perform specific tasks +1-866-877-0073 for a person with a disability, such +1-866-877-0073 as guiding a visually impaired person, alerting +1-866-877-0073 a hearing impaired person to sounds, detecting +1-866-877-0073 an oncoming seizure, or performing other trained +1-866-877-0073 disability related tasks. Under the Air Carrier +1-866-877-0073 Access Act and Caribbean's current policies, trained +1-866-877-0073 service dogs are permitted to travel in +1-866-877-0073 the cabin with their handlers free of +1-866-877-0073 charge, provided that the handler submits the +1-866-877-0073 appropriate Department of Transportation service animal forms +1-866-877-0073 in advance of the flight. To find +1-866-877-0073 out exactly what documentation Caribbean requires for +1-866-877-0073 a service animal and how to submit +1-866-877-0073 it, call +1-866-877-0073 well in advance of +1-866-877-0073 your travel date because the documentation must +1-866-877-0073 be submitted at least forty eight hours +1-866-877-0073 before departure. Emotional support animals, which were

+1-866-877-0073 previously allowed to travel in the cabin +1-866-877-0073 on Caribbean flights with a letter from +1-866-877-0073 a mental health professional, are no longer +1-866-877-0073 accepted as cabin traveling animals under Caribbean's +1-866-877-0073 current policy. Caribbean changed its emotional support +1-866-877-0073 animal policy in line with updated Department +1-866-877-0073 of Transportation guidelines, and as of January +1-866-877-0073 2021 Caribbean no longer allows emotional support +1-866-877-0073 animals to travel as cabin animals. Emotional +1-866-877-0073 support animals must now travel as regular +1-866-877-0073 pets and are subject to all of +1-866-877-0073 the same fees, carrier requirements, and space +1-866-877-0073 limitations that apply to pets. If you +1-866-877-0073 have an emotional support animal and want +1-866-877-0073 to travel with them on Caribbean, call +1-866-877-0073 +1-866-877-0073 to discuss your options and understand exactly +1-866-877-0073 what accommodations are available to you under +1-866-877-0073 the current policy.

H2: Step 18 – Avoid the Most Common and Costly Mistakes That Pet Owners Make When Adding a Pet to a Caribbean Flight

Learning from the experiences of +1-866-877-0073 other pet travelers can save you a +1-866-877-0073 tremendous amount of stress, money, and heartache +1-866-877-0073 when you are preparing to add your +1-866-877-0073 pet to a Caribbean flight. There are +1-866-877-0073 several very common mistakes that pet owners +1-866-877-0073 make during the process of planning, booking +1-866-877-0073, and executing pet travel on Caribbean, and +1-866-877-0073 being aware of these mistakes in advance +1-866-877-0073 gives you the opportunity to avoid them +1-866-877-0073 entirely. The single most common and most +1-866-877-0073 costly mistake is waiting too long to +1-866-877-0073 make the pet reservation. Because Caribbean limits +1-866-877-0073 the number of pets allowed in the +1-866-877-0073 cabin on each flight, waiting until the +1-866-877-0073 last minute to call +1-866-877-0073 and add +1-866-877-0073 your pet almost guarantees that the pet +1-866-877-0073 spots on your preferred flight will already +1-866-877-0073 be taken. Always make the pet reservation +1-866-877-0073 as early as possible, ideally at the +1-866-877-0073 same time you book your own ticket +1-866-877-0073. The second most common mistake is purchasing +1-866-877-0073 a pet carrier that does not meet +1-866-877-0073 Caribbean's specifications. Always verify the exact carrier +1-866-877-0073 requirements for your specific flight by calling +1-866-877-0073 +1-866-877-0073 before buying a carrier, and always test +1-866-877-0073 the carrier with your pet well in +1-866-877-0073 advance to make sure it fits properly +1-866-877-0073 and your pet is comfortable in it +1-866-877-0073. Another very common mistake is not preparing +1-866-877-0073 the necessary documentation in advance. Health certificates +1-866-877-0073, vaccination records, and service animal forms all +1-866-877-0073 have specific requirements and submission deadlines that +1-866-877-0073 must be met. Always ask the agent at +1-866-877-0073 +1-866-877-0073 exactly what documentation is required for your +1-866-877-0073 specific route and travel situation, and gather +1-866-877-0073 all of it well in advance of +1-866-877-0073 your travel date. Finally, many pet owners +1-866-877-0073 make the mistake of not preparing their +1-866-877-0073 pets emotionally for the travel experience, resulting +1-866-877-0073 in animals that are extremely stressed and +1-866-877-0073 difficult to manage at the airport and +1-866-877-0073 during the flight. Begin familiarizing your pet +1-866-877-0073 with the carrier and the travel routine +1-866-877-0073 weeks in advance to give your animal

+1-866-877-0073 the best possible chance of handling the +1-866-877-0073 experience calmly and comfortably.

H2: Step 19 – Frequently Asked Questions About Adding a Pet to Your Caribbean Airlines Flight With Complete and Detailed Answers
Q: Can I add a pet to my Caribbean flight online?
A: No, you cannot add +1-866-877-0073 a pet to your Caribbean flight online +1-866-877-0073 through the website or the Fly Caribbean +1-866-877-0073 app. The only way to officially add +1-866-877-0073 a pet to your Caribbean reservation is +1-866-877-0073 by calling +1-866-877-0073 and speaking with a +1-866-877-0073 live agent who will process the pet +1-866-877-0073 reservation and collect all necessary information.

Q: How much does it cost to bring a pet on Caribbean?
A: The pet fee varies +1-866-877-0073 depending on the route and current Caribbean +1-866-877-0073 pricing policies. For domestic in cabin pet +1-866-877-0073 travel the fee has historically been between +1-866-877-0073 ninety five and two hundred dollars per +1-866-877-0073 direction. Call +1-866-877-0073 to get the exact +1-866-877-0073 current fee for your specific flights.

Q: How many pets can I bring on a Caribbean flight?
A: Caribbean generally allows only +1-866-877-0073 one pet carrier per passenger traveling in +1-866-877-0073 cabin. Each carrier may contain up to +1-866-877-0073 two small pets of the same species +1-866-877-0073 if they fit comfortably together. Call +1-866-877-0073 +1-866-877-0073 to confirm the rules for your specific +1-866-877-0073 situation.

Q: Can my pet sit on my lap during the flight?
A: No, your pet must +1-866-877-0073 remain inside the closed carrier under the +1-866-877-0073 seat in front of you for the +1-866-877-0073 entire duration of the flight. Removing your +1-866-877-0073 pet from the carrier during flight is +1-866-877-0073 strictly prohibited. Call +1-866-877-0073 if you have +1-866-877-0073 any questions about in flight pet regulations +1-866-877-0073.

Q: Is there a weight limit for pets on Caribbean?
A: Yes, there is a +1-866-877-0073 combined weight limit for the pet plus +1-866-877-0073 the carrier together, generally around twenty pounds +1-866-877-0073 combined. This can vary by flight and +1-866-877-0073 aircraft type. Call +1-866-877-0073 to confirm the +1-866-877-0073 exact weight limit for your specific flight +1-866-877-0073.

Q: Can I bring an emotional support animal on Caribbean?
A: Caribbean no longer accepts +1-866-877-0073 emotional support animals as cabin animals under +1-866-877-0073 their current policy. Emotional support animals must +1-866-877-0073 now travel as regular pets subject to +1-866-877-0073 all standard pet fees, carrier requirements, and +1-866-877-0073 space limitations. Call +1-866-877-0073 to discuss your +1-866-877-0073 options if you need to travel with +1-866-877-0073 an emotional support animal.

Q: Do I need a health certificate for my pet?

A: Caribbean does not currently +1-866-877-0073 require a health certificate for most domestic +1-866-877-0073 pet travel, but some routes and international +1-866-877-0073 destinations may require one. It is always +1-866-877-0073 recommended to have a recent health certificate +1-866-877-0073 available. Call +1-866-877-0073 to find out whether +1-866-877-0073 a health certificate is required for your +1-866-877-0073 specific travel route.

Q: What breeds of dogs are restricted on Caribbean?
A: Caribbean restricts certain brachycephalic +1-866-877-0073 or snub nosed dog breeds including Bulldogs +1-866-877-0073, Pugs, Boston Terriers, Shih Tzus, Boxers +1-866-877-0073, and others due to respiratory health risks +1-866-877-0073. The complete list can change so always +1-866-877-0073 call +1-866-877-0073 to verify whether your specific +1-866-877-0073 breed is currently accepted.

Q: Can I fly with my pet internationally on Caribbean?
A: Caribbean does not allow +1-866-877-0073 pets in the cabin on most international +1-866-877-0073 routes. Pets traveling internationally generally must go +1-866-877-0073 through Caribbean Cargo which is a separate +1-866-877-0073 service. Call +1-866-877-0073 to find out what +1-866-877-0073 options are available for international pet travel +1-866-877-0073 on your specific route.

Q: What if the pet space on my flight is full?
A: If the pet space +1-866-877-0073 on your preferred flight is already taken +1-866-877-0073, the agent at +1-866-877-0073 can help you +1-866-877-0073 look at alternative flights that still have +1-866-877-0073 available pet space. This is why calling +1-866-877-0073 +1-866-877-0073 early is so critically important to secure +1-866-877-0073 your spot.

Q: Can my pet travel in the overhead bin?
A: Absolutely not. Placing your +1-866-877-0073 pet's carrier in the overhead bin is +1-866-877-0073 strictly prohibited and extremely dangerous. Your pet +1-866-877-0073 must travel under the seat in front +1-866-877-0073 of you at all times. Call +1-866-877-0073 +1-866-877-0073 if you have any questions about proper +1-866-877-0073 carrier placement.

H2: Step 20 – Your Complete Final Action Plan and Checklist for Successfully Adding a Pet to Your Caribbean Airlines Flight From Start to Finish
Here is a complete step +1-866-877-0073 by step checklist of everything you need +1-866-877-0073 to do from start to finish to +1-866-877-0073 successfully add a pet to your Caribbean +1-866-877-0073 Airlines flight.

Preparation Phase – Weeks or Months Before Travel:
✅ Research Caribbean's current pet +1-866-877-0073 travel policy thoroughly and call +1-866-877-0073 to +1-866-877-0073 confirm the specific rules for your route +1-866-877-0073.
✅ Confirm your pet's species +1-866-877-0073 and breed are accepted by calling +1-866-877-0073 +1-866-877-0073 and asking about any breed restrictions.

✅ Purchase an approved soft +1-866-877-0073 sided carrier after verifying the exact dimensions +1-866-877-0073 with an agent at +1-866-877-0073.
✅ Schedule a complete veterinary +1-866-877-0073 checkup and discuss the travel plan with +1-866-877-0073 your vet to confirm your pet is +1-866-877-0073 healthy enough to fly.
✅ Obtain a health certificate +1-866-877-0073 from your veterinarian and gather all vaccination +1-866-877-0073 records and required documentation.
✅ Begin familiarizing your pet +1-866-877-0073 with the carrier at home weeks in +1-866-877-0073 advance of your travel date.
✅ Book your airline ticket +1-866-877-0073 and immediately call +1-866-877-0073 to check pet +1-866-877-0073 space availability and add your pet to +1-866-877-0073 the reservation.
✅ Pay the pet fee +1-866-877-0073 when you call and save the confirmation +1-866-877-0073 with your updated booking information.

Final Preparation – Days Before Your Flight:
✅ Weigh your pet in +1-866-877-0073 the carrier to confirm combined weight meets +1-866-877-0073 Caribbean's limit and call +1-866-877-0073 if you +1-866-877-0073 have any concerns.
✅ Pack your complete pet +1-866-877-0073 travel kit including food, water, bowl, treats +1-866-877-0073, cleaning supplies, waste bags, and documents +1-866-877-0073.
✅ Practice short trips with +1-866-877-0073 your pet in the carrier to build +1-866-877-0073 comfort.
✅ Confirm your full reservation +1-866-877-0073 including pet addition by calling +1-866-877-0073 one +1-866-877-0073 more time to verify everything is correct +1-866-877-0073.
